

# The Ones Who Got Me Here

[Cole Swindell](#)

The ones that I drank all those beers with  
Made it through those high school years with  
All those girls I loved who broke my heart  
All those back roads I drove 'round on  
That church pew that I got found on  
That college town where I first got my start  
All the haters, all the lovers  
All the friends that are more like brothers  
All the people I ain't seen in too many years  
All the faces in the bleachers, the never gave up on me teachers  
Yeah, this one's for the ones who got me here  
The ones that said I'd never make it  
The ones that said: There's your chance, go take it  
Took all of you for me to get this far  
Jobs along the way that paid me  
People who dug deep to raise me  
Made me who I am, you know who you are  
All the haters, all the lovers  
All the friends that are more like brothers  
All the people I ain't seen in too many years  
All the faces in the bleachers, the never gave up on me preachers  
Yeah, this one's for the ones who got me here  
The ones still around, the ones that are gone  
My biggest fan, Mama back home  
All the truth and all the dares  
All the long shot late-night prayers  
All the haters, all the lovers  
My dad and my two brothers  
All the people I ain't seen in too many years  
And I thank God that I met you  
Hope you know I won't forget you  
This one's for the ones who got me here  
Yeah, this one's for the ones who got me here, yeah
