Superman

[Keith Urban](#)

Ah, one, two, three, goNow lately I've been livin' in a world that's black and whiteEver since
you left, all the colors just drained out of my life
And I been goin' through the motions
I can feel myself slippin' away, slippin' awayI keep thinkin' 'bout that summer, South Daytona
Beach
We never left the bed, no, we never got no sleep
And I been lookin' back and thinkin' 'bout the way it was
The way we were, we were reckless, so recklessWhen I was with you, baby, I was Superman
Yeah, we were sky high, there was nothing better
When I was with you, grabbin' that live wire
Where we were Johnny and June in a ring of fire
Now you're caught up in my head like a melody
Of the sweetest summer song that we used to sing
Ooh, when I was with you, when I was with you (when I was with you)
On some starry summer nights, I still wonder where you are
Are you still breakin' all the hearts of all the boys that play guitar?
And just goin' through the motions of emotions
It's slippin' away, slippin' away, mmBut even with all that, girl, I'd still trade a few heartbeats
For one more sleepless night tangled up between your sheets
And I been lookin' back and thinkin' 'bout the way it was
The way we were and those hundred mile an hour curvesWhen I was with you, baby, I was
Superman
Yeah, we were sky high, there was nothing better
When I was with you, grabbin' that live wire (live wire)
Where we were Johnny and June in a ring of fire
Now you're caught up in my head like a melody
Of the sweetest summer song that we used to sing
Ooh, when I was with you, when I was with you, ohWhen I was with you
Oh, now you're caught up in my head like a melody
Of the sweetest summer song that we used to sing
Ooh, when I was with you, when I was with you
Hey, hey, hey
