

I'm Tryin' to What

Next

This is, another Next presentation
For the streets
The cars, the clubs, especially for the strippers
Ready, set, go Your body is killin', I'm saying whats up
(What's up?)
We chillin', some drinkin', come grab you a cup
(Grab you a cup)
Can you quit trippin', come show me some love
We're leavin', just listen, go hop in the truck Your body is killin', I'm saying whats up
We chillin', some drinkin', come grab you a cup
Can you quit trippin', come show me some love
We're leavin', just listen, not trying to what
How could you walk in here
Knowing everyone would, look at you
Tightest fit I've ever saw on
Had no bra on, I want you To come pop a squat
Have a couple shots
Let me talk to you
Get a little buzz on
Then we can do what grown ups do Stop the actin'
Feel the attraction
What's happenin'
Let's get this crackin' I'm nasty
What's up? Miss Jackson
Got some hot candles
And a real cold mattress
Your body is killin', I'm saying whats up
(What's up?)
We chillin', some drinkin', come grab you a cup
(Grab you a cup)
Can you quit trippin', come show me some love
We're leavin', just listen, go hop in the truck Your body is killin', I'm saying whats up
We chillin', some drinkin', come grab you a cup
Can you quit trippin', come show me some love
We're leavin', just listen, not trying to what And it's so loud I can hardly hear
But shorty best believe I see your body clear
No bra, my high, no underwear
Got me thinkin' bout what's under there Ma, I can't lie when I peep the rear
And I tie just 'cause mommy u ain't represent
I die my cranberry and Belvedere and I pulled you near
And said, let's get out of hear Stop the actin', feel the attraction
