

Good Life (feat. Ida Corr)

Oliver Heldens

Got a ticket to a better day
Even gold don't even shine
But you and me would have to run away
Still you're gonna feel alive I could show you an easy way
Just take my hand tonight
When you feel like you're standing still
It's gonna catch you by surprise We faith, we win, then start again
Keep on moving
We faith, we win, then start again
Keep on moving
This is the good life Always searching for an open door
When you're there you realise
Look no further coz you got the key
Gonna open up your eyes Just imagine an easy way
And run with me tonight
I know you feel like you're standing still
It's gonna catch you by surprise
We faith, we win, then start again
Keep on moving
We faith, we win, then start again
Keep on moving This is the good life
