

# The Moondog

## Crystal Fighters

I saw the future and I see it all around  
Cause the past is the person and the future in now  
I saw a stone and it took me through the coulds  
where the sound is the colour and the colour is the sound  
And I never thought I'd be missing you  
I just want you to be free and true  
Tired of all the things that we used to do  
I just want you to be free and true  
For the ... And all this kind  
That you can't stop watching and you don't know why  
Close your eyes just let it all go  
And the next thing you'll know you'll be in the show  
And I never thought I'd be here with you  
Now just do whatever it is you want to  
Whatever happens to me or you  
Look up to a star and drift away  
Whatever happens to me or you  
you can look up to the blue and drift away  
And I never thought I'd be here with you  
Now just do whatever it is you want to  
See our story burst all free and true  
Now just do whatever it is you want to  
And now we have to name a star  
Before we'll drift the world apart  
Now go, go, go  
You're on your run  
Whatever happens to me or you  
Look up to a star and drift away  
Whatever happens to me or you  
you can look up to the blue and drift away  
Whatever happens to me or you  
Look up to a star and drift away  
Whatever happens to me or you  
you can look up to the blue and drift away  
Whatever happens to me or you  
Look up to a star and drift away  
Whatever happens to me or you  
you can look up to the blue and drift away  
Whatever happens to me or you  
Look up to a star and drift away  
Whatever happens to me or you  
you can look up to the blue and drift away
