

# Let It Die

## Starset

I cut you into pieces  
Searching for your imperfections  
I had plans to make you whole  
But all my threads couldn't stop the bleeding  
Theres nothing left, but I'm not leaving  
When all I know is youI've been looking for a way  
To bring you back to life  
And if I could find a way,  
I would bring you back tonight  
Id make you look, Id make you lie  
Id take the coldness from your eyes  
But you told me, if you love me  
Let it die  
Your eyes stare right through me  
Ignore my failed attempts to  
Breathe back life into your veins  
But I cant start your cold heart beating  
You're so far gone, but I'm not leaving  
When all I know is you  
I've been looking for a way  
To bring you back to life  
And if I could find a way,  
I would bring you back tonight  
Id make you look, Id make you lie  
Id take the coldness from your eyes  
But you told me, if you love me  
Let it dieAnd you left me more dead  
Than you'll ever know  
When you left me alone
