

# Who I Want You to Love

## Bleachers

I tell you the place in my dreams  
Always blessed, always scream  
To follow the strangest road  
That seems indoor  
And what you want me to love you?  
I will bleed when you want me to bleed  
But I don't know too much of anything  
Because it don't hurts me  
Come on, don't push me down that road  
Always trusted, always told you  
I'll follow you anything you can like  
That seeks in your and love what you want to me to love  
I will bleed when you want me to bleed  
But I don't know too much of anything  
Because it don't hurt me  
It don't hurt me
