

# Stuck With Me (feat. Little Dragon)

Tinashe

[Verse 1]

I can't, get what we've been through now  
I've tried to not let you self-destruct  
I know it wasn't just your fault  
I keep my back against the wall  
I'm scared that you're too powerful  
I've tried to stop getting too close  
Oh, you gotta  
You gotta  
You gotta go down

[Chorus]

Fires and flames, are in yours eyes and...  
I wish that I didn't burn so much  
Fires and flames, are in yours eyes and...  
I wish that I could put you out  
Oh, oh, oh, oh, oh, I hope you'll stay the night  
Oh, oh, oh, oh, oh, I hope you'll stay the night with me [Verse 2]

Count the days, tryna win this race  
Tryna take it slow, better let it go  
When colors fade, you could lose your way  
I can take you home, we could be beautiful  
So let me stay the night  
Won't you let me stay the night?

[Chorus]

Fires and flames, are in yours eyes and...  
I wish that I didn't burn so much  
Fires and flames, are in yours eyes and...  
I wish that I could put you out  
Oh, oh, oh, oh, oh, I hope you'll stay the night  
Oh, oh, oh, oh, oh, I hope you'll stay the night with me...
