

# Heaven Sent

Donnie

I swear I feel the spirit every time you I look at you  
Cause I know that God is moving in my life  
There's a certain type of healing every time you look at me  
And I know the feelings neither wrong nor right It's very evident that you are heaven sent  
It's very evident  
It's very evident that you are heaven sent  
It's very evident Looking at the sun is like looking at your face  
It blinds me sometimes  
Laying on your chest is like being in the council of the angel my God  
It's very evident that you are heaven sent  
It's very evident  
It's very evident that you are heaven sent  
It's very evident Repeat I'm riding with an angel on a wave of love  
I'm riding so high, riding with an angel  
It's very evident that you are heaven sent  
It's very evident  
It's very evident that you are heaven sent  
It's very evident
