

# I Thought There Was Time

Blake Shelton

I knew something was the matter  
It really needed my attention  
And I had planned to look into it someday  
But I was busy making money  
I wanted you to be proud of me  
Now I wish I could turn the clock back somehow I thought there was time I never thought that  
you would leave me  
I always thought that I could find you  
Somewhere near a phone to answer when I call  
Now you have my full attention  
Now you're all that I can think of  
This is not what I expected at all  
I thought there was time  
I thought there was time Are you even on this planet  
Can you see these pretty flowers  
Or am I standing here just talking to the wind  
How I wish that I had told you  
How I wish that I had shouted  
I love you I love you I love you I love you back then  
I thought there was time  
I thought there was time  
I thought there was time  
I thought there was time
