

# Liberation

## Pet Shop Boys

Take my hand  
I've changed my mind again  
Really I believed it true  
that all who fell in love were foolish  
But I was wrong  
I've learned that lesson well  
All the way back home at midnight  
you were sleeping on my shoulder  
Take my hand  
Don't think of obligations  
Now, right now  
your love is liberation  
To free in me  
the trust I never dared  
I always thought the risk too great  
but suddenly I don't hesitate so  
Take my hand  
Don't think of complications  
Now, right now  
your love is liberation  
Liberation  
The night, the stars  
A light shone through the dark  
All the way back home at midnight  
you were sleeping on my shoulder  
Take my hand,  
Don't think of hesitation  
Now, right now  
your love is liberation  
Liberation  
Back home at midnight  
All the way back home at midnight
