Playtime

Junior Boys

I should be in the main theme Born to compete, you should know me 'Cause I'm not a fool, it's the truth for real I know how to act all the way that I feelI've been waiting for you The things I believe that are almost true Once for all you come marching through I could live on a big rig Born in the flash of a simple mistake Itch like a kid for the right time to steal It's over so fast you never know how to feel So I'll hold onto you If the things I believe are almost true Once for all you wanted me tooCome a little closer Stare a little longer like competitors do 'Cause this fight's forever If it breaks up there'll be nothing to do These things I'll proveI've been waiting for you The things I believe are almost true Once for all you really wanted me tooCome a little closer Stare a little longer like competitors do 'Cause this fight's forever If it breaks up there'll be nothing to do Come a little closer Stare a little longer like competitors do 'Cause this fight's forever If it breaks up there'll be nothing to do
