

# Where Do We Go from Here

Brian McKnight

I found an old photograph  
I couldn't help but laugh  
I remember that day and it was the best of times  
You were my first  
My beginning and my end  
Am I losing my best friend  
Am I coming or going and if this is goodbye  
And now, where do we go from here  
When everything seems so clear  
Will I be left with the pain  
Standing all alone out in the rain  
Lost after the love is gone  
When everything right turns wrong  
And where do we go from here  
Love have I run out of time  
You said you'd always be mine  
It's hard to believe that somehow we've grown apart  
Why the way that things have been  
It just don't make no sense  
I'm so unprepared for the way I feel inside  
And now, where do we go from here  
When everything seems so clear  
Will I be left with the pain  
Standing all alone out in the rain  
Lost after the love is gone  
When everything right turns wrong  
And where do we go from here  
What happened to the flame  
It don't feel the same  
And I don't know what to say, to say  
And where do we go from here  
When everything seems so clear  
Left with the pain  
Standing all alone out in the rain  
And lost after the love is gone  
When everything right turns wrong  
And where do we go from here, here, here  
And now, where do we go from here  
When everything seems so clear  
Left with the pain  
Standing all alone, standing all alone out in the rain  
Lost after the love is gone  
When everything right has gone wrong  
And where do we go from here, from here
