

Feel It Coming Back (feat. Diego Torres)

Santana

Under the stars at night,
I whisper in your ear,
I burn myself in hell,
You close i wanna show you
Dating in your heat,
Story's like a tale
A tale of undless dreams,
'Cause when I get to kiss
You leave the coming true
Like I have never see.
It's like a bright in all my senses,
Nothin' is the same.I feel my heart going faster and higher
And stronger when you're next to me
'Cause I remember my world I give a coming need
But then you set me freeI feel my heart has been found
Has been same is no longer of is beating try
'Cause no there's nothing better then you give a love
And feel it coming back, I feel it coming back.There's just a simply touch
It left without a dawn
Is just so good to me
That I what capt to see
With love is all about.*It's like a bright...*I feel my heart...
Baby let me be your shelter
When the night is get for,
Let me be your lighter hold,
Your guide in light in all you know.*I feel my heart...
