

# Water Guns (feat. Jordin Sparks)

## Todrick Hall

When I was just a little boy  
Me and my father  
Would go out back and play a little game of cops and robbers  
One day he cocked the gun and pointed to my mom and shot her  
And I cried and cried with laughter  
After I realized it was just water  
But things have changed now  
The world just ain't the same now  
We're frightened but we need to be enlightened  
Use our brain now  
People pointing fingers trying to find someone to blame now  
Ashamed how the game of cops and robbers ain't a game now

(Jordan)

These ain't water guns  
And please save all our sons and daughters  
What we're fighting for  
Cuz these ain't water guns  
Water guns no more  
And these ain't water guns  
And please save all our sons and daughters  
What we're fighting for  
Cuz these ain't water guns  
Water guns no more

(Todrick)

Look around tell me how we ever got here  
We fighting hard but the reasoning is not clear  
Stop here, where is the love if it's not here  
The solution to not getting shot here  
Is not fear  
And we can fly away on a balloon to another land  
Or we can make this home  
Find another plan  
Too much blood on these yellow bricks streets  
And history repeats until we can finally hold our brothers hand(Jordan)

These ain't water guns  
And please save all our sons and daughters  
What we're fighting for  
Cuz these ain't water guns  
Water guns no more  
And these ain't water guns  
And please save all our sons and daughters  
What we're fighting for

Cuz these ain't water guns  
Water guns no more(Todrick)  
So take my hand in your hand  
And let's stand if we can  
Pray for all the fallen ones  
These ain't  
(These ain't)  
These ain't water guns(All)  
Take my hand in your hand  
And let's stand if we can  
Pray for all the fallen ones  
These ain't  
(These ain't)  
No these ain't water guns(Jordan)  
These ain't water guns(All)  
These ain't water guns  
And please save all our sons and daughters  
What we're fighting for (what are we fighting)  
Cuz these ain't water guns  
Water guns no more  
And these ain't water guns  
And please save all our sons and daughters  
What we're fighting for  
Cuz these ain't water guns  
Water guns no more  
These ain't water guns (water guns no more)  
And please save all our sons and daughters  
What we're fighting for (why are we fighting)  
Cuz these ain't water guns (water guns, can you hear me)  
Water guns no more  
And these ain't water guns  
And please save all our sons and daughters  
What we're fighting for  
Cuz these ain't water guns  
Water guns no more(Jodan)  
Do you hear them?  
These ain't water guns no more
