Tornado

Little Big Town

Thought you'd change the weather Start a little storm Make a little rain But I'm gonna do one better Hide the sun until you pray I'm a tornado Looking for a soul to takeYou're gonna see me coming By the selfish things that you did I'm gonna leave you guessin' How this funnel is gonna hit I'm a tornado Looking for a man to break Yeah, I'm gonna lift this house Spin it all around Toss it in the air and put it in the ground Make sure you're never foundThought you'd take a swing Try another girl, try another night But it's the pain that brings my force of nature back to life I'm a tornado More disturbed than an F5Hey, I'm gonna lift this house Spin it all around Toss it in the air and put it in the ground I'm gonna lift this house Spin it all around Toss it in the air and put it in the ground Make sure you're never found... Oh, yeah 0000000000 HMMMMMMMMI'm gonna lift this house Spin it all around Toss it in the air and put it in the ground I'm gonna lift this house Spin it all around Toss it in the air and put it in the ground Make sure you're never foundThe winds are getting stronger And the sky is falling through And you ain't got much longer 'Til the rage rips off the roof I'm a tornado And I'm coming after you...Hmmm... Hmmm...

Hmmm...
