

Stfd

TeZATalks

I'm chasing freedom for the fearless
I gotta do it cause i can't chase fear myself
I'm bout as broken as i confess
But better than most that lay cower
Proud of who they crowd You don't know me
Coming to take your crown
Bow down
You know that i can do better, better
I don't need you to come in and show me how
Settle down
Cause you know that i can do better, better
I'm not here to take no names or reservations
I'm the devil telling satan i'm just wild
Sit the fuck down
I'm a kill it let me live just how i'm livin'
Ghetto heart with good intentions
I'm just wild
Sit the fuck down
Sit the fuck down
Sit the fuck down
Down, down, down
Running circles causes regret
It's the only thing i see
Straight mental health
Black and white colored sunsets
Empty bitches need water cuz i ma give them hell You don't know me
Coming to take your crown
Bow down
You know that i can do better, better
I don't need you to come in and show me how
Settle down
Cause you know that i can do better, better
I'm not here to take no names or reservations
I'm the devil telling satan i'm just wild
Sit the fuck down
I'm a kill it let me live just how i'm livin'
Ghetto heart with good intentions
I'm just wild
Sit the fuck down
Sit the fuck down
Sit the fuck down
Down, down, down

Limitations got you waiting round in circles
Got my mind on melancholy
Now i'm fading color purple
Sit down, sit down, sit down, sit down
Sit the fuck down
Sit the fuck down
Sit the fuck down
Sit the fuck down To stay alive don't stray your light
To stay alive don't stray your light
To stay alive don't stray your light
To stay alive don't stray your light
