

# Sine Language (feat. LMFAO)

## The Crystal Method

Sineways, make the bass  
Let me take y'all to a higher place  
Four bucks for a gallon of what?  
I'm a hy-brid baby, no need to rush  
Side chains, squash the bass  
Blast this shit into outer space  
You're a Pac-Man bitch on an old Atari  
We grand theft auto in a hot Ferrari  
Oh...

Last night, had a little party  
Got drunk, threw up on everybody  
Woke up, 3 in the PM  
I feel good, just had a BM  
What I like is girls cookin breakfast  
And what I really like is that they cookin naked  
It feels right when you're living your dream  
I put my purple pants on and then I step on the scene  
Hey...

We in a coupe, rollin the strip  
with a flask in the pocket and we ready to sip  
top down, hey, bumpin the Method  
Music so loud that we might get arrested  
At the club, the line is long (How long?)  
About as long as my dingily-dong  
I am sippin' fast  
put half in the trunk and the rest in the flask

Sineways, make the bass  
Let me take y'all to a higher place  
Four bucks for a gallon of what?  
I'm a hy-brid baby, no need to rush  
Side chains, squash the bass  
Blast this shit into outer space  
You're a Pac-Man bitch on an old Atari  
We grand theft auto in a hot Ferrari  
We, step in the door, rocking the fro  
LMFAO baby, now we in control.  
It's like I wanna be the fulfillment,  
I got five dollars but I feel like a million  
Where's the tequila rocks though?  
I take a couple shots and I feel like a vato  
Heeeey, We be keeping it hot though,  
Your girl's like chips, cause now she's not-chos.

Sideways, make the bass  
Let me take y'all to a higher place  
Four bucks for a gallon of what?  
I'm a hy-brid baby, no need to rush  
Sideways, squash the bass  
Blast this shit into outer space  
You're a Pac-Man bitch on an old Atari  
We grand theft auto in a hot Ferrari  
(We gonna do what we wanna do) x3  
Sideways, make the bass  
Let me take y'all to a higher place  
Four bucks for a gallon of what?  
I'm a hy-brid baby, no need to rush  
Sideways, squash the bass  
Blast this shit into outer space
