

Mirror (feat. Kelly Price & Tweet)

KeKe Wyatt

Look me in my eyes mirror
Cuz I've seen that look before
Tell me whats inside mirror
Cuz we both agreed no more We were so close to getting over him
Now you're telling me we're going back
Again - in How could you
Betray me
And take My heart back through that door Oh mirror
Please tell me
We both deserve so much more How could you
Oh Mirror
What Pleases you is hurting me
Tell me mirror
How could it be Oooh Look into my eyes mirror
Can't believe the things he said
See through his disguise
Mirror
Come with me, Lets run away We were so close to getting over him
Now you're telling me We're going back again How could you
Betray me
And take My heart back through that door Oh mirror
Please tell me
We both deserve so much more
How could you
Oh Mirror
What Pleases you Keeps hurting me
Tell me mirror There's no way new love can find us
If we keep looking behind us
No More Heartache
That aint the way loves supposed to be There's no way new love can find us
If we keep looking behind us
So this time mirror
Listen to me How could you
Betray me
And take My heart back through that door Oh mirror
Please tell me
We both deserve so much more How could you
Oh Mirror
What Pleases you Keeps hurting me
Tell me mirror
Oh ooo ohh How could you
Oh Mirror

What pleases you keeps hurting me
Tell Me Mirror
