

# The Stars

## Lady Antebellum

Life is a beautiful messed up mystery  
Yeah, it's true, it can make you laugh, it can cut you deep  
Sometimes you gonna feel like a million bucks, sometimes a burned out cigarette  
But whatever comes your way, no matter what, don't you ever forget  
The stars ain't got nothing on you  
Your heart burns much brighter than the moon  
If you ever lost and broken inside  
Just remember the way you helped me shine  
The stars ain't got nothing on you  
Your eyes got a fire that can burn the cold away  
And your smile could turn the darkest night into a summer days  
Sometimes you're gonna feel like you just can't lose, sometimes you reaching for the reset  
But whatever comes your way, no matter what you're going through, don't you ever forget  
The stars ain't got nothing on you  
Your heart burns much brighter than the moon  
If you ever lost and broken inside  
Just remember the way you helped me shine  
The stars ain't got nothing on you  
You're a sunset hanging off a purple sky  
You're the perfect melody to a lullaby  
So life gets too much, take a deep breath  
And don't you ever forget  
The stars ain't got nothing on you  
Your heart burns much brighter than the moon  
If you ever lost and broken inside  
Just remember the way you helped me shine  
The stars ain't got nothing on you  
Yeah, the stars ain't got nothing on you
