

Omega (2001 Remastered Version)

Bruce Dickinson

The ashes drift away, smoke of our confusion
We turn our frightened faces to each other, say goodbye
Waited for the sign, waited for the moment
Waited for the miracle to arrive, I guess the lied Look at your future, take a look at your burning
sky
Look at your future, look at your burning sky The others they have gone, who wants to live
forever
With nothing left to hold on to the past that we once knew?
We believed in heaven, we believed in angels
With arms of purest white, to hold us, catch us when we fall
Look at your future, take a look at your burning sky
Look at your future, now look at your burning sky Now it's omega zero day, the red star shines
it's last rays,
The sun that gave us life yesterday
Is now the sun that takes our lives away Take a look at your future, look at your burning sky
Look at your future, look at your burning sky
Now it's omega zero day, the red star shines it's last rays,
The sun that gave us life yesterday
Is now the sun that takes our lives away Now it's omega zero day, the red star shines it's last
rays,
The sun that gave us life yesterday
Is now the sun that takes our lives away
