

# Lights On

**FKA twigs**

I shy away in my mind  
In hopes in that I could share this place with you  
You'll be the first one to find  
The shadows that make the girl you undo  
Cause the man that you are is to find  
By the way you act in the light  
Break or seize me  
If the flame gets blown out in the shine  
I will know that you can not be mine  
Never leave me  
When I trust you we can do it with the lights on  
When I trust you we can do it with the lights on  
When I trust you we'll make love until the morning  
Let me tell you all my secrets and I'll whisper 'til the day's done  
Break or seize me  
Let the things that I tell you survive  
In the way that you handle your size  
Never leave me
