

Move Together (feat. Majid Jordan)

Somewhere Else

Tight hold
I know it's a long road
But I gotta stay close to you, baby
I'm keepin' you close to me, baby Cause when I move, you move
We move together
We groove together
Step one, two, together Our love won't stop
This love can't stop
We move together
We groove together
Our love won't stop
We move together
We groove together
This love can't stop
This road
Young souls, we got high hopes
I know it's a tightrope
And I gotta stay close to you, baby
I'm cuttin' it close, here, baby Cause when I move, you move
We move together
We groove together
Step one, two, together Our love won't stop
This love can't stop
We move together
We groove together
Our love won't stop
We move together
We groove together
This love can't stop
My love won't stop
No, it won't ever
We'll find some way
To get it back together
Even when I'm lost
I see myself in your reflection
With your hand in mine
I can't deny I'm better Our love won't stop
This love can't stop
We move together
We groove together
Our love won't stop
We move together

We groove together
This love can't stop
