Move Together (feat. Majid Jordan)

Somewhere Else

Tight hold I know it's a long road But I gotta stay close to you, baby I'm keepin' you close to me, babyCause when I move, you move We move together We groove together Step one, two, togetherOur love won't stop This love can't stop We move together We groove together Our love won't stop We move together We groove together This love can't stop This road Young souls, we got high hopes I know it's a tightrope And I gotta stay close to you, baby I'm cuttin' it close, here, babyCause when I move, you move We move together We groove together Step one, two, togetherOur love won't stop This love can't stop We move together We groove together Our love won't stop We move together We groove together This love can't stop My love won't stop No, it won't ever We'll find some way To get it back together Even when I'm lost I see myself in your reflection With your hand in mine I can't deny I'm betterOur love won't stop This love can't stop We move together We groove together Our love won't stop We move together

We groove together This love can't stop Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
