

# Rain

## ABS

It's been about a couple of days gone by  
When I last saw you  
When you said bye-bye  
Then you walked away and left me alone  
All get is a dial tone  
When I call your phone  
Occasionally I'll roll about your way  
I thought about the words that I could say  
But you ain't trying to feel me  
You don't even wanna' heal me [BRIDGE #1]

Oh

Is it my turn to cry over you?

'Cos no matter what I do

Those rainy days won't leave me alone

[CHORUS]

What kind of love leaves you feeling cold

All alone with nobody to hold

Don't wanna' feel like I did that day

Let the Rain wash the pain away

Sometimes I think I hear you call my name

Sometimes it's just my mind playing games

But nothings changed

It's still all the same

Let the Rain wash the pain away See your picture all up in a magazine

With some other cat I've never seen

You was looking more beautiful then you've ever been

Here come those lonely feelings again

I must be tripping on myself

'Cos the fact that you're with somebody else

It's getting me down

Girl, I can't deny

I guess this is what it sounds like

When the doves cry

[BRIDGE #2]

Oh

Did you choose girl or do it for him?

'Cos no matter what I do

Those rainy days won't leave me alone [CHORUS][break] [CHORUS]
