## Ice Age

## **How to Destroy Angels**

I find it looks the same, but everything has changed I find remembering gets harder every day Sometimes I still believe who I pretend to be Sometimes, well everything's exactly how it seems see the color of your eyes turn to gray I feel the wind is growing colder every day Sometimes I open up the walls and disappear Sometimes the crashing of the waves is all I hearOcean, help me find a way Ocean, wash us all awayI know that everything we did will come around I take the thought of you and burn it to the ground Sometimes I'm waiting for this ice age to arrive Sometimes the hate in me is keeping me alive Ocean, help me find a way Ocean, wash us all away Ocean, help me find a way Ocean, carry us away Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
