## Down

## <u>311</u>

Chill, light on my sight as my ego becomes A funky child with some words on my tongue Be like intake of breath and my mouth gets loose So while I scatter my spit, I dream of juice Have you ever made out in dark hallways Displayed a kiss that made your day or say Played a track from your record collection It's your mix, congratulationsWe've changed a lot and then some, some You know that we have always been down, down If I ever didn't thank you, you Then just let me do it nowI bet you light up when we start the show Follow me now very closely 'cuz I told you so You know, we glow because we throw sun rays Yeah we be freaky and we wanna stay We've changed a lot and then some, some You know that we have always been down, down If I ever didn't thank you, you Then just let me do it nowLightning strikes, yo we be in that violent force of light Guaranteed to turn it out as bad as dolemite Because we're dope kid, change like a chameleon And the channel whenever the wack show Real World is on You know we dazzle like ghetto box boomin' battles Rattle inside your head feel redeemed like cola bottles Fall in love with your teachers, on the wax we are self made Check the technique, 311 in L.A.We've changed a lot and then some, some You know that we've always been down, down If I ever didn't thank you, you Then just let me do it now Keep my feet on the ground Keep my head in the clouds Electrified by the sound Comes from the down, and We've changed a lot and then some, some You know that we've always been down, down If I ever didn't thank you, you Then just let me do it now Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
