Summer

Calvin Harris

When I met you in the summer To my heartbeat sound We fell in love As the leaves turned brownAnd we could be together, baby As long as skies are blue You act so innocent now But you lied so soon When I met you in the summer When I met you in the summer To my heartbeat sound We fell in love As the leaves turned brown And we could be together, baby As long as skies are blue You act so innocent now But you lied so soon When I met you in the summerSummerWhen I met you in the summer
