

# Any Ol' Barstool

Jason Aldean

I guess you heard I was pedal to the metal  
On a downhill slide  
Girl, you know those rumors get to flyin' in a town this size  
No, I didn't feel a thing when you threw that  
Ring and slammed the door  
If you wanna know the truth  
You gotta go straight to the source Ask any ol' barstool in this town  
Ask my new found party crowd  
Sure I take more Jack in my coke now  
A little more high in my smoke now  
Sure I stay 'til they're all long gone  
And I take the long way home  
But I ain't sittin' 'round  
Tryin' to drown the thought of you  
Ask any ol' barstool  
I can finally stretch out in our king size bed  
If I make it that far  
But fillin' in all these blanks you left isn't all that hard  
No, I ain't wonderin' where you been  
Or who you been with  
I guess you didn't hurt me half as bad as you think you did Ask any ol' barstool in this town  
Ask my new found party crowd  
Sure I take more Jack in my coke now  
A little more high in my smoke now  
Sure I stay 'til they're all long gone  
And I take the long way home  
But I ain't sittin' 'round  
Tryin' to drown the thought of you  
Ask any ol' barstool Yeah, you think I'm down and out  
Hidin' out, hell-bent crazy  
But that ain't me, baby  
Ask any ol' barstool in this town  
Ask my new found party crowd  
Sure I take more Jack in my coke now  
But I'm a long way from broke now  
Sure I stay 'til they're all long gone  
And I take the long way home  
But I ain't sittin' 'round  
Tryin' to drown the thought of you  
Ask any ol' barstool  
Ask any ol' barstool I guess you heard I was pedal to the metal  
On a downhill slide
