

# This Photograph Is Proof (I Know You Know)

## Taking Back Sunday

Well, I'll wait till you listen  
I won't say a word to follow your instincts  
Which just never worked for me  
Oh, you're silent but strong  
Yeah, I'm playing that card  
And you're noticing nothing again Now I'm lying on the table with everything you said  
Keep that in mind, the way that it felt  
When the most I could do was to just blame myself  
(Feel it out for once and feel nothing like everyone else)  
When the most I could do was to just blame myself And I know you know everything  
I know you didn't mean it  
I know you didn't mean it  
I know you know everything  
(Drop everything)  
(Start it all over)  
I know you didn't mean it  
(Remember more than you'd like to forget)  
I know you didn't mean it So, we're talking forever and you almost feel better  
But, better's no excuse for tonight  
You see, it's never bad enough to just leave or give up  
But, it's never good enough to feel right Now I'm lying on the table with everything you said  
It will all catch up eventually  
Well, it caught up and honestly  
The weight of my decisions were impossible to hold  
But they were never yours, they were never yours  
(They were never yours)  
Well, I know you know everything  
I know you didn't mean it  
I know you didn't mean it I know you know everything  
(Drop everything)  
(Start it all over)  
I know you didn't mean it  
(Remember more than you'd like to forget)  
I know you didn't mean it Drop everything  
Start it all over  
Remember more than you'd like to forget Drop everything  
Start it all over  
Remember more than you'd like to forget Would you like to forget?  
Would you like to forget?  
Drop everything, start it all over  
Well, drop everything, start it all over  
(Would you like to forget)

Drop everything, start it all over  
Start it all Well, I know you know everything  
I know you didn't mean it  
I know you didn't mean it I know you know everything  
(Drop everything)  
(Start it all over)  
I know you didn't mean it  
(Remember more than you'd like to forget)  
I know you didn't mean it I know you know  
I know you know I know you know  
(Drop everything)  
(Start it all over)  
I know you know  
(Remember more than you'd like to forget)  
You know, you know, you know
