

# Voodoo

## Black Sabbath

Say you don't love me, you'll burn  
You can refuse, but you'll lose, it's by me  
Say you don't want me, you'll learn  
Nothing you do will be new 'cause I'm through  
Oh Call me a liar, you knew  
You were a fool, but that's cool, it's all right  
Call me the devil, it's true  
Some can't accept but I crept inside you  
So if a stranger calls you  
Don't let him whisper his name  
'Cause it's voodoo  
Fade into shadow, you'll burn  
Your fortune is free, I can see it's no good  
Never look back, never turn  
It's a question of time till you're mine and you learn  
So if a stranger sees you  
Don't look in his eyes  
'Cause he's voodoo  
Say you don't love me, you'll burn  
You can refuse, but you'll lose, it's by me  
Say you don't want me, you'll learn  
Nothing you do will be new 'cause I'm through  
Voodoo  
Bring me your children, they'll burn  
Never look back, never turn  
Cry me a river, you'll learn  
Voodoo
