Under

Pleasure P

Callin' my river to let her know I'ma be on my way

Missin' how the river flow even though

It's only been a couple of days'Cause it be raining and complaining you

Got that water made for drinking up

Baby if I drown tonight it's all worth it for you

I don't need no rescueI'ma hold my breath until you feel it in your chest

When I go under, under

I ain't coming up until you scream and knock it off

When I go under, under You be making waves, my ship's here to stay

I got what it takes to swim up in it all day

I want you to shake it, later tell me it was great

When I go under, under

Girl relax, captain can handle that

I'ma take this cruise real slow

Heading to paradise, close your eyes

All you gotta do is let it goThe way your body flow, it's a private show

And I can't stop until it's spilling over

It's a sight to see you and it's calling me

Telling me your body's getting closerI'ma hold my breath until you feel it in your chest

When I go under, under

I ain't coming up until you scream and knock it off

When I go under, under You be making waves, my ship's here to stay

I got what it takes to swim up in it all day

I want you to shake it, later tell me it was great

When I go under, under

I'm jumping in, no lifesaver

Don't know when I'm coming up

Deep sea diving in your treasure

I'm giving you all this pleasureOoh girl, I'm so into you

So deep I don't know what to do

Just let the water flow

Till the tidal wave washes us ashoreI'ma hold my breath until you feel it in your chest

When I go under, under

I ain't coming up until you scream and knock it off

When I go under, under You be making waves, my ship's here to stay

I got what it takes to swim up in it all day

I want you to shake it, later tell me it was great

When I go under, under Under, under

Under, under
