

Out My Mind

Kalin and Myles

Let's go

This one right here goes out to all the girls with the big big hearts
And a smile so bright you forget about what it's like being in the dark
I just wanna say thank you to ya'll one time you know who you are
You could change the world with that love, it could just take one heart (Hey)
You the one I want ooh girl you got it (Girl you got it!)
Yeah you the one there ain't no doubt about it (You know about it)
You make me feel some type of way
Got me switching up my ways
I guess what I'm tryna say is that I'm
I'm falling for you (I'm falling for you)
And everything that you do (You do baby)
You make me feel some type of way
Got me switching up my ways
I guess what I'm tryna say is
You got me feelin' like a hundred million dollars
Every time you come around, I forget about tommorow
I was low to the ground, now I'm high up in the sky
Yeah I'm low, yeah I'm down
I cant get you my mind

...

Look

Okay stop, drop, roll your hips
I just wanna see if you can handle it
I need front, back, side to side
Take it down low, pick it back up high
Okay work, work, work it out
Make that thang go north to south
Throw it back, back, just like that
Wait stop
Now make it clap, c'mon!
You the one I want ooh girl you got it (girl you got it!)
Yeah, you the one there ain't no doubt about it (you know about it)
You make me feel some type of way
Got me switching up my ways
I guess what I'm tryna say is that I'm
I'm falling for you (I'm falling for you)
And everything that you do (You do baby)
You make me feel some type of way
Got me switching up my ways
I guess what I'm tryna say is
You got me feelin' like a hundred million dollars

Every time you come around, I forget about tomorrow
I was low to the ground, now I'm high to the sky
Yeah I'm low, yeah I'm down
I can't get you my mind
