

I Need Never Get Old

Nathaniel Rateliff & The Night Sweats

Can we be there
Oh, just think of the time
Thought of love so strange
Said you never knew
While I try my best
To cover our eyes
It's a common way to blame and hide the truth I know that some will say it matters but little babe
But, come on and mean it to me
I need it so bad
I needed to try
I need to fall
I needed your love I'm burning away
I need never get old Taking our time ah just standing in the rain
Meaning what you said ah and mean it to me
All of these lies oh and never again
Come on and say it now say it's a game I know that some will say it matters but little babe
Come on and mean it to me I need it so bad
Mean it to me I need it so bad
I needed to try
Needed to fall
I needed your love I'm burning away
I need never get old
