I Need Never Get Old

Nathaniel Rateliff & The Night Sweats

Can we be there Oh, just think of the time Thought of love so strange Said you never knew While I try my best To cover our eyes It's a common way to blame and hide the truthI know that some will say it matters but little babe But, come on and mean it to me I need it so bad I needed to try I need to fall I needed your love I'm burning away I need never get oldTaking our time ah just standing in the rain Meaning what you said ah and mean it to me All of these lies oh and never again Come on and say it now say it's a gameI know that some will say it maters but little babe Come on and mean it to me I need it so bad Mean it to me I need it so bad I needed to try Needed to fall I needed your love I'm burning away I need never get old
