## Intuition

## Maejor

I always know Sometimes I just let it do I'm watching you, watching you, yeahWords from the soul Speak outside of my control They tell me things That are true (true)I know there's something going on My intuition is never wrong (Intuition) I know there's something going on (Intuition) My intuition is never wrong I'm listening To songs that your lips don't sing They tell me things About you, yeahEnvisioning Visions that your eyes can't see They show me things That are true, that are true I know there's something going on (Intuition, intuition) My intuition is never wrong (Intuition, intuition) I know there's something going on (Intuition, intuition) My intuition is never wrong (Intuition, intuition) (Intuition, intuition) (Intuition, intuition)
