

# Believer

## Capital Kings

Eyes open, I'm floatin' off  
Take me away  
You're reachin', I feel it  
I can't be the same I'm a fuse soaked in gasoline  
A beam of light for the world to see  
Can't slow me down, no I, I wanna see the world on fire  
I, I see you signal in the night  
So I illuminate, I  
I'm jumping out in faith, I  
I'm never hidin' this light away  
I am more than a dreamer  
I'm a believer  
I'm a believer  
Your spirit, it sends me  
Out into the fray  
You go out before me  
I'm never afraid I'm a fuse soaked in gasoline  
A beam of light for the world to see  
Can't slow me down, no (slow me down)  
I, I wanna see the world on fire  
I, I see you signal in the night  
So I illuminate, I  
I'm jumping out in faith, I  
I'm never hidin' this light away  
I am more than a dreamer  
I'm a believer  
I'm a believer Oh, I wanna see the world on fire  
See your signals in the night
