

# Pachuca Sunrise

## Minus the Bear

Midnight on a beach in the Mediterranean  
And I miss you even here, taking it all in  
The sand silvered carries the moon on it's shoulders  
Is it possible to put this night to tune and move it to you? And move it to you and move it to you  
And move it to you and move it to you  
And move it to you and move it to you  
And move it to you Don't cry, I'll bring this home to you  
If I can make this night light enough to move  
Don't cry, I'll bring this home to you Don't cry, I'll bring this home to you  
If I can make this night light enough to move  
Don't cry, I'll bring this home to you  
Cargo ships move by tracing on the horizon line  
There's a luster from the city lights on the waves that kiss our feet  
And we're thinkin' of goin' in  
(And we're thinkin' of goin' in and we're thinkin' of goin' in)  
The time's getting thin  
(The time's getting thin, the time's getting thin) Don't cry, I'll bring this home to you  
If I can make this night light enough to move  
Don't cry, I'll bring this home to you  
If I can make this, if I can make this Don't cry, I'll bring this home to you  
If I can make this night light enough to move  
Don't cry, I'll bring this home to you This is a city for not sleeping and the clocks are set by feel  
At this moment from where I sit, none of it seems real  
Don't cry, I'll bring this home to you  
If I can make this night light enough to move  
Don't cry, I'll bring this home to you  
If I can make this night light enough to move Don't cry, I'll bring this home to you  
If I can make this night light enough to move  
Don't cry, I'll bring this home to you  
If I can make this night light enough to move  
If I can make this night light enough to move
