

Pussy Riot

KMFDM

"Three members of the feminist punk collective pussy riot face three years in jail each for taking part in a punk rock prayer in which they called on the virgin mary to rid Russia of vladimir putin"Blood sister comrade, we move as one

Bound by our promise to never give up

Honour, salvation, we'll fight its way

We are not sinners that need to be savedBreak out

Program superhero anarchy

Break out

We will defy your authority

We are who we are

What we believe

You have not seen the last of me

Pussy riot hear us roar

An army of tits down for the cause

Mother, daughter, sister unite

Rise out of silence, stand up and fightBreak out

Stand up, unify, raise hell

Break out

Fight to the death for equalityWe are who we are

What we believe

Locked up or free not seen the last of me

We are who we are

I try to keep my faith alive

What we believe

I cannot keep my hate inside

No religion or state of cross brutality

You have not seen the last of me

Break out

We will defy your authority

We are who we are

I try to keep my faith alive

What we believe

I cannot keep my hate inside

Locked up or free not seen the last of me

We are who we are

I try to keep my faith alive

What we believe

I cannot keep my hate inside

No religion or state of cross brutality

You have not seen the last of me

Break out"It was a prayer directed at the virgin mary

but it was heard all around the world."
