

# Begin Again

## Knife Party

Is there somewhere else to be?  
Is there another way to feel  
The lost pieces all over  
Getting closer Hold up your hands and begin again  
Hold up your hands when you reach the end  
We live and we work and we die for it  
We know our path and we fight for it  
Hold up your hands and begin again  
Hold up your hands when you reach the end  
We live and we work and we die for it  
We know our path and collide for it And begin again  
When you reach the end  
And begin again  
When you reach the end  
And begin again  
When you reach the end  
And begin again  
When you reach the end
