

# What I Wouldn't Give

Blake Shelton

Leave the radio on  
Just to hear a voice other than mine  
'Cause I can't bear to hear  
The cold truth running through my mind 'Cause everything I did wrong  
Just keeps haunting me, it won't let me be  
Lying here without you  
Girl, I'm starting to see why you gave up on me What I wouldn't give just to go back when  
You were in my life, I'd do it right this time  
What I didn't do is give my whole heart to you  
And that's why you're gone, I know I was wrong  
And I'll never hold you again 'cause of what I wouldn't give  
It kills me to think  
How much you tried to make things work  
I wouldn't listen to you  
All I would do is put myself first I took you for granted  
And I pushed you away a little more each day  
Somewhere inside this hell  
I have seen my mistakes, oh, but now it's too late What I wouldn't give just to go back when  
You were in life, I'd do it right this time  
What I didn't do is give my whole heart to you  
And that's why you're gone, I know I was wrong  
And I'll never hold you again 'cause of what I wouldn't give  
What I didn't do is give my whole heart to you  
And that's why you're gone, I know was wrong  
And I'll never hold you again 'cause of what I wouldn't give  
'Cause of what I wouldn't give
