

Fastlane

The Internet

Fastlane - The Internet

[Verse 1]

Drivin' in my car
Damn near cut me off
Now you're in the fast lane
So you better not slow me down
And I refuse to change my direction
So you best make up your mind
Before I get caught in the intersection
And minor traffic lights
Sending me mixed signals
Get right or get left
Don't seem like you're ready
So just get out of my way
Seventy in six
Get right or get left
Don't tell me you're sorry
Just get out my lane
Slowin' me down
Slowin' me down

[Verse 3]

And now we're moving faster
You're catching up to speed
And yes your car looks good to me
And you know it, don't try to speed off
Like I didn't teach you, well you know
Are you ready for the open road
Sending me mixed signals
Get right or get left
Don't seem like you're ready
So just get out of my way
Seventy in six
Get right or get left
Don't tell me you're sorry
Just get out my lane
Slowin' me down
Slowin' me down
Warning signs were there
But we never cared
So we crashed
And learned a lesson
And to take care of the damage

We need to admit that accidents happen
So if it's cool with you
I'll just be on my way
(Reversed Instrumentals Psychedelic Notation.)
