

4U

blackbear

You thought I wouldn't come around to you, round to you
You know I was down for you, down for you
Now I'm wishin' that I neva bowed to you, bowed to you I'm in this shit I can't get out of, I'm
not proud of
Hate the sound of all these sounds bout you, songs bout u
Ya know I was wrong bout you, wrong bout you
Let you hold on to this cash, let you hold on to I'm in this shit I can't get out of, I ain't proud
of I'm runnin' outta time to hold you close
Runnin' outta time to be your man
Girl, I'm just lost in this moment
I'm just zonin'
I'm runnin' outta time to hold you down
Runnin' outta time to be your man
Girl, I'm just lost in this moment
I'm just zonin'
You know that I could get you more, a lil more
Whateva you need, whacha need
You know that I could get you more, a lil more
Whateva you need You found I wouldn't come around to you, round to you
You know I was down for you, down for you
Now I'm wishin' that I neva bowed to you, bowed to you
I'm in this shit I can't get out of, I'm not proud of
Hate the sound of all these sounds bout you, songs bout u Ya know I was wrong bout you,
wrong bout you
Let you hold on to this cash, let you hold on to
I'm in this shit I can't get out of, I ain't proud of I'm runnin' outta time to hold you close
Runnin' outta time to be your man
Girl, I'm just lost in this moment
I'm just zonin'
I'm runnin' outta time to hold you down
Runnin' outta time to be your man
Girl, I'm just lost in this moment
I've been zonin'
You know that I could get you more, a lil more
Whateva you need, whacha need
You know that I could get you more, a lil more
Whateva you need
What you need
And if you can't see what is on front of you, you lose
And if you can't see what is on front of you, you lose
And if you can't see what is on front of you, you lose
