

StreetLove

Lloyd

Street love, street love
Street love, street love I knew it from the first time you said hello
That you were special
We come from two different worlds? girl I know
But just 'cause I? m hood It don? t mean that I'm out here trying to get with every girl
I'm just looking for that someone who I can give the world
Please don? t judge me baby, look into my eyes
I ain't playing with you no, girl I got to get you Baby, your heart is safe with me, oh yes it is
Let me show you what love suppose to be
Girl, I wanna to give you all of this street love
I wanna give it, all of this street love
Baby, your heart is safe with me,
take all of my street love
Baby, I don't wanna to have to let go
Just let me hold you
Your homies say I'm no good I'm ghetto
But just 'cause I'm hood It don't mean that I'm out here trying to get with every girl
I just looking for the someone who I could give the world
Please don? t judge me baby look in to my eyes
I ain't playing with you, no, girl I got to get you, ooh Baby, your heart is safe with me
Let me show you what love suppose to be
(I want to show you love, I want to show you love)
Girl, I want to give you all of this street love,
all of this street love
(Every little bit of it)
Baby, your heart is safe with me,
take all of my street love
Baby, don't you hold back, don't you want to give it
(Just want to give you all my love)
Baby, don't you hold back, don't you want to give it
(This is how I feel about you) Baby, don't you hold back, don't you want to give it
(Even though we come from two different worlds)
Baby, don't you hold back, don't you want to give it, give it
(There? s something real about you) Baby, don't you hold back, don't you want to give it
(Girl, don't be scared to follow your heart)
Baby, don't you hold back, don't you want to give it
Baby, don't you hold back, don't you want to give it
(I'll never ever hurt you, you deserve me)
Baby, don't you hold back, don't you want to give it, give it Baby, your heart is safe with
Let me show you what love suppose to be
(I girl I just wanna give you)
I want to give you all of this street love, all of this street love

Baby, your heart is safe with me, take all of my street love
Baby, your heart is safe with
Let me show you what love suppose to be
I want to give you all of this street love
I want to give you all of this street love
Baby, your heart is safe with me, take all of my street love
