## Release

## **Imagine Dragons**

Twenty miles from anyone
Set my sights on the setting sun
Heaven talks but not to me
Cause heaven knows that nothing good comes free

Desolation tragedy

Is there nothing good in me

I've let me down down down

I've let me down down down

Petty lies to everyone

In the hopes that I could be someone

Heaven talks but not to me

And now I wonder if it's meant to be

Desolation tragedy

Is there nothing good in me

I've let me down down down

But I'll take your word

Cause after all you've never lied

Oh not at all

But look at me

Oh what a mess

I get caught up in the things that matter the least

Oh let me have release

I've let me down down down
