Bring Em Out

Hawk Nelson

All the girls and the boys

And people making noise

Just let me hear you shout -

Bring 'em out! Bring 'em out!

Pump up your fist

If you twist like this

'Til the lights go out -

Bring 'em out! Bring 'em out! All the girls and the boys

And people making noise

Just let me hear you shout

Bring 'em out! Bring 'em out!

Pump up your fist

If you twist like this

'Til the lights go out

Bring 'em out! Bring 'em out!

Katie,

I don't know why I even try

'Cause lately

You're always out with other the guys

Pretty baby

Don't you know I'll treat you right

I'll go crazy

If you pass me up tonightHey - Hey - Hey Hey!

Hey - Hey - Hey Hey! All this time can't get it off my mind

Dance the night away

Keep rocking with me

When the grooves alright

Rocking all night

I want to hear you say

All the girls and the boys

And people making noise

Just let me hear you shout

Bring 'em out! Bring 'em out!

Pump up your fist

If you twist like this

Til the lights go out

Bring 'em out! Bring 'em out! Wake up

I'm calling you up I need a ride

We're gonna shake up

So hurry it up no wasted time

The girls in their makeup

In black and white

Exchanging looks tonight

I just ran into some other friends of mine

Someone's coming 'round to pick them up at nineHey - Hey - Hey Hey!

Hey - Hey - Hey Hey! All this time can't get it off my mind

Dance the night away

Keep Rocking with me

When the grooves alright

Rocking all night

I want to hear you say

Hey Hey!All this time can't get it off my mind

Dance the night away

Keep Rocking with me

When the grooves alright

Rocking all night
