

Nah Let Go

Gyptian

Nah let go, no, nah let go, no
Ooh yeah, lemme sing Said I want you, I want you
Said I want to, I want to
I'll give you some time
Even a little wine She say she nah let go
No matter how far me go
She say she rather be there so
And she nah make no joke She say nah let go
No matter how far me go
She say she rather be there so
And she nah run no joke
Tell me how you bend and move like a acrobat
When how, tell me how you do that
Babe, I never seen you move like a gymnastic
And your moves are fine and fantastic Random girl, your body is incredible
Spin on my world like a turntable
You turn some and give me the drop and wine
And you open up my eyes wide one more time Nah let go
No matter how far me go
She say she rather be there so
And she nah make no joke She say nah let go
No matter how far me go
She say she rather be there so
And she nah run no joke
Like a hundred degrees clock
Wine like that, girl baby, wine and stop
Wonder where ya get style like that
Me you tell 'em me nah want see you stop girl And she shaped like beer bottle
Hold a bottle shape leh yuh beer stable
No gyal out there around like you
But them not have me, instead me a follow you Nah let go
No matter how far me go
She say she rather be there so
And she nah make no joke She say nah let go
No matter how far me go
She say she rather be there so
And she nah run no joke I've never, ever seen another girl wine this way
And don't you even bother to get her number
Because the sexy girl is with me Nah let go
No matter how far me go
She say she rather be there so
And she nah make no joke She say nah let go

No matter how far me go
She say she rather be there so
And she nah run no jokeNah let go
No matter how far me go
She say she rather be there so
And she nah make no jokeShe say she nah let go
No matter how far me go
She say she rather be there so
And she nah run no joke
