

# Rolling Stone

## Hurts

In fair Verona where we lay our scene  
Juliet is on her knees  
She shoots to kill  
And aims to please  
And you can see it in her eyes  
It's not something that she likes  
But she can't stand being alone  
So you thank her for her charm  
And you take her in your arms  
But she just won't let you go  
She said her daddy was an alcoholic  
And her mother was an animal  
Now she's living like a rolling stone  
She said that the law will never take her alive  
If they take her home  
In Belarus she was a vespertine  
She danced the go-go for the bourgeoisie  
Now she's here and she is on her knees, oh  
And she won't apologize  
For the cheating and the lies  
But she can't stand being this way  
You can see it in her eyes  
She would kill them if they try  
To send her back to her grave  
She said her daddy was an alcoholic  
And her mother was an animal  
Now she's living like a rolling stone  
She said that the law will never take her alive  
If they take her home  
(Rolling stone, rolling stone)  
She keeps on living like a  
(rolling stone, rolling stone)  
She said her daddy was an alcoholic  
And her mother was an animal  
Now she's living like a rolling stone  
She said that the lord will never take her alive  
If they take her home  
They'll never take her alive if they take her home  
They'll never take her alive if they take her home
