

December (feat. Davey Havok)

Seven Lions

I saw
Your breath
Decorate the airSnow blind
We love
A fire burning downI gave
My breath
On your lips it frozeMy heart
We love
A fire in the snow
Meet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
My dear DecemberMeet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
Bring me winterMy dear December
My dear December
My dear December
My dear December
My dear DecemberMeet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
Bring me winterMy dear December
My dear DecemberI saw
Your breath
Decorate the airSnow blind
We love
A fire burning downI gave
My breath
On your lips it frozeMy heart

We love
A fire in the snow
