

December (feat. Davey Havok)

Seven Lions

I saw
Your breath
Decorate the air Snow blind
We love
A fire burning down I gave
My breath
On your lips it froze My heart
We love
A fire in the snow
Meet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
My dear December Meet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
Bring me winter My dear December
My dear December
My dear December
My dear December
My dear December Meet me once more
Where we met before
It's growing colder
Will you remember
To fall like the snow
Holding me close
Bring me winter
Bring me winter My dear December
My dear December I saw
Your breath
Decorate the air Snow blind
We love
A fire burning down I gave
My breath
On your lips it froze My heart

We love
A fire in the snow
